About Us

Having the right kind and technology of machinery for production work is important for every business owner to attain high production results. Needless to cite, with the growing needs for sturdy and advanced machines, manufacturers are developing quality based machines but not all of them are promising for their durable service life. We, on the other hand, not solely present to customers hi-tech machines but also commit for the quality we serve. We are Shivam Industries, a Ahmedabad, Gujarat (India) based manufacturer of Stainless Steel Edible Oil Filter Machine, Stainless Steel Cartridge Filter Housing, Automatic Vibro Sifter Machine, U Shape Mass Mixer Machine, Mirror Polished Membrane Filter Holder, U Shape Ribbon Blender Mixing Machine and a host of other machines. Our collection contains different types, capacities and functionalities of industrial machines, all of which are suitable for gaining application specific results. Having the best team of engineers and designers, we come up with space-efficient machines that require less power for working and low maintenance. It is the result of these along with many other features that customers across the nation invest in our machines.

Shivam Industries has a positive track record of satisfying customers from Cosmetics, Food, Chemicals, Pharmaceuticals and other industries by supplying high technology based Vertical Bag Filter Housing, Stainless Steel Liquid Filtration Machine, Ribbon Blender Mixer Machine, Stainless Steel Membrane Filter Holder and more. These machines are shipped as per orders on a prompt basis from our location in Ahmedabad, Gujarat (India).

Applications

Today, there are many industries where production in abundance and with accuracy is impossible without the use of machines. Yes, machines have taken over most production works. They have become the mainstay of numerous industries for their effectiveness and promptness in production works. We at Shivam Industries are proud to bring forth Stainless Steel Edible Oil Filter Machine, Automatic Vibro Sifter Machine, Mirror Polished Membrane Filter Holder, U Shape Mass Mixer Machine and many other machines, which are suitable for processing cosmetics, spices, talcum powder, chemicals, granules, medicines and many more. Small to big size Food, Pharmaceuticals, Cosmetics and other companies make purchase of our offered industrial machines due to their strong built, ease of usage and high cost-effectiveness.
